Nov. 4/05.

My dear friend Blum!

We have had our little girl with us today & my wife has a great longing to — as well as myself. We go to New York on Monday & on Tuesday she will enter the Presbyterian Hospital for the operation which I am assured is not dangerous though very troublesome. I shall return to Bethlehem as soon as I know that all is well with her.

probably by Thursday night
& feel that I owe it to
you largely that more
consideration has been
shown her at the Dairy
& am duly grateful
& yet I am not pleased
with the school for
that I have made a
mistake after all.
However I shall make
the best of it at least
for the time being. I will
not trouble you with
details. I trust that
your wife is doing well
With a heart full of
trouble I am

Faithfully yours
Chas. A. Lung

P.S. When I get back I shall certainly
go to Phoenix to see
Dr. L. L.
