Secretary, Nazareth Hall,

Dear Sir,

Mrs. Cortelyou has received your circular, and wishes to make some inquiries. Her son has completed the course in the Washington public school, and is to enter the High School if he remains

at home. Can he be fitted for college at your school? May he begin Latin at once, and later on Greek? What class or year will he enter? He has finished Geography, U. S. History, and through Percentage in Arith. taken one yr. of Algebra. Has never studied Elocution, and needs spelling every day, and lacks in Grammar. We are sending him away for the study hour which is impossible here in the city, and for your discipline and military drill. Our boy is good, and you will like him very much, but he himself sees the necessity of a boarding school routine and regular hours for study. Please reply to this letter at once
